Assignment2_1

The image displays a CAD software interface with a 2D sketch of a mechanical part on the left and a parameter table on the right.

Sketch Details:

- The sketch is centered on a vertical green axis and a horizontal red axis.
- It features a central circle with a slot on the right side.
- There are two smaller circles on the left side, one above and one below the central circle.
- The sketch is defined by green lines and points, with a blue dashed line indicating a specific dimension or constraint.
- A small inset in the top right corner shows a top view of the part with a green line and a red line, labeled "TOP".

Parameter Table:
